

wife have headache and backache every month? Is she nervous, languid, fretful? Not quite so at-

tractive as she used to be? She may be silent about her suffering. But she needs attention. Nine chances out of ten there is some "female trouble" or weakness. If that is not corrected she will soon be a helpless invalid. But it can be corrected quickly and easily. You can see her a well and happy woman again.

has done more for suffering women than any other single agency. It is natures provision for the regulation of the menstrual function. It relieves headache and backache by stopping the cause of that trouble. It cures "whites", falling of the womb, flooding, all painful menstrual disorders. It should be taken during pregnancy, after child-birth, for mis-carriage and change of life. It has helped bring children into many homes barren for years. Every woman needs it. Don't see your wife suffer and grow old before her time.

Wine of Cardui makes women beautiful and happy by making them perfectly healthy, It should be in every home. \$1.00 at the drug store. Get a bottle to-day.

DERAILED AND BURNED.

Paisburg, Pa., March 27.—A Western Pennsylvania freight train of seven cars loaded with merchandise jumped the tracks at Seline, Pa., early this morn-

were evidences of manipulation in some of these stocks. This continued, practically without interruption, to the close, which showed the lowest of the week. The dealings in Sugar, Tobacco and Leather preferred were noticeably heavy and cach in turn was attacked determinedly, resulting in a marked fall in prices. The railroads continued under the heavy weight of the fear of a rate war. The low-priced shaes seemed to be picked out for epecial attack and bore the brunt of the selling in the railway list after the first hour. The following indicates the day's decline where they exceeded a fraction: Sugar, 1% per cent; Tobacco, 1%; Chicago Gas, 1%; Leather preferred, 1%; New Jersey Central, 2; Burlington, 1%; Rock Island, 1%; Osnaba, 1%; Lake Shore, 2; Louisville and Nash-ville, 1; New York Central, 1%; Baltimore and Ohio, 1%; with a slight subsequent raily of 1 per cent; Colorado Fuel, 1%; Minnesota Iron, 1%; Kanses and Texas preferred, 1%; Northern Facific preferred 1%; Reading, 1%; Reading first preferred 2%. The total sales of stocks today were 12,-500 shares, including; American Tobacco, 11, 200; Substance, including; American Tobacco, 11, 200; Substance, Leading American Tobacco, 11, 200; Substance, 12, 100; Chicago Gus trust receipts, 8,70; Louisville and Nashville, 2,-60; Northern Pacific preferred, 5,106; Reading, 1,20; St. Paul, 11,70; Tennesace Couland Iron, 2,50; Northern Pacific preferred, 5,106; Reading, 1,20; St. Paul, 11,70; Tennesace Couland Iron, 2,50; Northern Pacific preferred, 5,106; Reading, 1,20; St. Paul, 11,70; Tennesace Couland Iron, 2,50; Northern Pacific preferred, 5,106; Reading, 1,20; St. Paul, 11,70; Tennesace Couland Iron, 2,50; Northern Pacific preferred, 5,106; Reading, 1,20; St. Paul, 11,70; Tennesace Couland Iron, 2,50; Northern Pacific preferred, 5,106; Reading, 1,50; St. Paul, 11,70; Tennesace Couland Iron, 2,50; Northern Pacific preferred, 5,106; Reading, 1,50; St. Paul, 11,70; Tennesace Couland Iron, 2,50; Northern Pacific preferred, 5,106; Reading, 1,50; St. Paul, 11,70; Tenn

THE WEEK'S REVIEW.

ing. 4,200; St. Paul. 11,700; Tennessee Coul and Iron, 5,000; New Jersey Central, 3,000.

THE WEEK'S REVIEW.

The decision of the supreme court on Mon day that the old Trans-Missouri Freight association was liegal under the Sherman anti-trust law, has occupied the attention of Wall street all week to the practical exclusion of everything else. The decision was announced tee late Monslay to have any appreciable effect on that day's trading, but prices broks all around on Tuesday, and the general tendency downward was not especially checked all through the week. This was the more remarkable as the market had already withstood some severe shocks in the last few weeks, such as the recent severe slump in Missouri Pacific and New Jersey Central, with nothing more than momentary pause in the trading. But the fear in the minds of all owners of railroad shares that the Trans-Missouri decision meant the dissolution of all existing rate and traffice associations and an outbreak of destructive rate wars between railroads all over the country, broke the market, which had held firm through other vicissitudes. The Vanderblit stocks, which had been the sustaining force of the market ever since the Lake Shore refunding plan was made known, succumbed quite as readily as any of the others. The industrials did not entirely escape the effect of the judicial decision, the Sherman antitrust law having been somewhat discredited as an instrument of aggression against corporations before it was htus sweepingly confirmed by the highest court. The fears occasioned in Wall street have been diligent by fed all week by the views expressed on the decision by practically all the railroad men who have talked upon in. The immediate disintegration of the associations of the historiations, seemed to quite apprehensions in the market more than anything else. Little account was taken, however, that a war of rates could only be predicitated by the violation of one of the roads and current comment in the street uncovered the existence of a rather cyni \$40,000. The crew escaped injury by Ford City, Pa., March 27.—Balley's general store and the postoffice building dazed condition. His face and neck Seattle, Wash., March 27.—A Nanai-mo, B. C., dispatch to the Post-Intel-lingencer says: The steamer Barbary Louisville, Ky., March 27.—A special to the Evening Post from Eddyville says: James and John Fulke, promithat a war of rates could only be precipitated by the violation of one of the roads and current comment in the street uncovered the existence of a rather cynical distrust among reilroad manager and an opinion, expressed with cound candor, that the only means by which these authorities can be prevented from underbidding one another and discriminating in rates is an authority to inflict fines and penalties upon them for doing so. The prevalent alarm over the perilous state of the rat agreements tended to exaggerate the nervousness of traders over the evidences of ighality bostility, as reflected in proposed antirallroad legislation in some of the wastern states, the tone of debate in congress over the proposed antirust amendments to the tariff bill, and the entire futility, according to reports from Washington, of any hope that congress will at present pass or

ope that congress will at present pass or impe that congress will at present pass or yen consider a measure to authorize railroad pooling. There were other depressions into sees at work in the market, notwisted the promise of a condition of the extended investment movement which had additated from the good buying in the Vanlerbilts. The anthractic coal group was a notable center of depression, in view of the week-work and noor prices of coal and the wer-stock and poor prices of ceal and the ready reduced demand. New Jersey Cen-

notable center of depression, in view of the over-stock and poor prices of ceal and the greatly reduced demand, New Jersey Ceatral being a constant resource for the bears on account of the reiterated reports of poor financial condition, and possible reduction of dividend. It was a noticeable fact that in the midst of the alarm over the possible disasters to result from disrupted traffic associations, the anthracite coalers enjoyed periods of steadiness. The increase shown in the New Jersey Central earnings and the declaration of the Lackawanu dividend will have to be credited with this in part, but it was also pointed out that the coalers would not need to suffer from the lack of traffic associations, on account of what is termed the harmonious financial coatrol of that group of properties. The improvement of business in the south, indicated by an increase in radicod earning, has been very marked and has proved a steadying influence on the price of stocks. The dissolution of the iron ore pool is regarded as a natural sequence of the district of other combinations in the allied industries, and is expected to result in a largely increased volume of business, although at lower prices. A beneficial effect is looked for on general business.

Some of the week's declin at the extreme low point were as follows, the closing prices for the week being also about the lowest in most cases: Sugar, 14; per cent. Tobacco, 15; Chicago Gas, 14; General Electric, 25; Leake Erie and Western, 2; Lake Erie and Western, 2; 1; New York Central and St. Louis seconds preferred, 7; Lake Erie and Western, 2; 1; New York Central and St. Louis general mand facts of the strength of the offering of security drafts. The advance in actual rares up to Thursday was an average of about the losing days, owing to the offering of security drafts. The advance in actual rares up to Thursday was an average of about the losing hards and washville, 2; Kansas and Texas preferred, 5; Northern Pacific preferred, 15 Minnessta Iron, 62; Colorado Fuel, 24. proced for the week being also about the profession of the profession

Colorado Coal and Iron sixes. The sales were \$0.815,000. Governments sagged early in the trading STOCKS AND BONDS out later developed strength and regained he declines on investment purchases. The ales were \$28,600.

SHARE MARKET CLOSES AT THE WEEKLY BANK STATEMENT.

And at About the Lowest of the Week-Review of the Week, Showing the Course of Events in Relation to the Trans-Missouri Decision - Foreign Exchange Strong Through the Greater Part of the Week-Money Easy, Especially at the Last-New York Bank Statement, Showing Loans Decrease.

New York, March 27.—Except for a brief period after the opening, there was no disposition on the part of the shorts to cover today and all seemed content to realize on a falling market. The course of prices was upward if the start only, in response to the high range of London prices and on a small amount of covering. The movement was most marked in the grangers, but fild not exceed a fraction at any point. The large preponderance of the dealings was in the industrials and the specialities and there were evidences of manipulation in some of these stocks. This continued, practically without interruption, to the close, which showed the lowest prices of the day and about the lowest of the week. The dealings in Sugar, Tobacco and Leather preferred were noticeably heavy and each in lurn was attacked determinedly, resulting in a marked fall in prices. The railroads continued makes the heavy weight of the control under the past two years, it is a resulted to the financial marked the higher was attacked determinedly, resulting in a marked fall in prices. The railroads continued under the heavy weight of the

neturally occur, however, is not at an certain.

Lespite the unsteadiness in the financial world for the past two years, it is a remarkable fact, and one showing the excellent management of the New York banks, that the past decade shows an increase in the book value of their stocks of 34s percent. Since 1806, the trust occupanies have noted \$14.800.600 to their surplus, a gain equal to 70 per cent of their capital.

LOANS AND ENCHANGE. cqual to 70 per cent of their capital.

BUBBLES or MEDALS

"Best sarsaparillas." When you think of it how contradictory that term is. For there can be only one best in anything - one best sarsaparilla, as there is one highest mountain, one longest river, one deepest ocean. And that best sarsaparilla is --- ? . . . There's the rub. You can measure mountain height and ocean depth, but how test sarsaparilla? You could if you were chemists. But then do you need to test it? The World's Fair Committee tested it, - and thoroughly. They went behind the label on the bottle. What did this sarsaparilla test result in? Every make of sarsaparilla shut out of the Fair except Ayer's. So it was that Ayer's was the only sarsaparilla admitted to the World's Fair. The committee found it the best. They had no room for anything that was not the best. And as the best, Ayer's Sarsaparilla received the medal and awards due its merits. Remember the word "best" is a bubble any breath can blow; but there are pins to prick such bubbles. Those others are blowing more "best sarsaparilla" bubbles since the World's Fair pricked the old ones. True, but Ayer's Sarsaparilla has the medal. The pin that scratches the medal proves it gold. The pin that pricks the bubble proves it wind. We point to medals, not bubbles, when we say: The best sarsaparilla is Ayer's,

The Wonderful

This cut represents the machine that produces the X Mays now so when deed in locating and diagnosing obstinate diseases.

Dr. Terrill has purchased at great expense one of these wonderful hatteries and a complete X Ray outlit for diagnosing diseases.

By the use of our new and powerful instrument—the Flourouscope—the Doctor is enabled to follow the light of the X Rays as they penetrate the body, showing him any diseased condition, such as locating a builet or any foreign substance, tumors, abnormal growths, or, in fact, any diseased condition that may exist. We invite all to come and see the X Ray machine work. One treatment free.

The Institute is also equipped with the Static, Galvanic and Faradic Batteries, such as the McIntosh late improved cabinet battery and the Jeroma Kidder Mammoth Battery of New York, which has 7,700 feet of wire in one coll. This is the great anesthetic battery used by all the leading Electro-Therapeatics and Gynocologists of New York and eastern cities in the treatment of the Ixwasse

was heard from her until March 17, when the schooler Hilds arrived at Perth Amboy, N. J., with four men she had taken from longboat No. I of the St. Nazaire at secand bear final been picked up. On March II the Cromwell steamer Ureole sea. They reported that the steamer had foundered off Cape Hatteras on March 6. When they had recovered sufficiently to be able to talk they told a horribis tale of death and suffering.

On the first night out a furious storm battered the steamer, which supped heavy sum. The storm increased in violetce until on Sunday night the waves an actrees, 24 years of age, died otday in lence until on Sunday night the waxes an actress, 21 years of age, died otday in a mashed the hatches and filled the engine room and pur out the fires. Without steam the St. Nazzire was absolutely helpless, and Capanin Jaganesu ordered that the boats be lowered and manned. The largest one was reserved for the night.

Alward entered upon her stage career, two years ago, despite the protests of her parents, who are said to be wealthy residents of Memphis, Tenn.

COAT MAKERS THREATEN

Practical Restoration of the Task System & Principal Grievance,

New York, March 27.—A strike of 16,900 coat tailors is threatened, to take
place after the Hebrew helidays. The
takers have been compelled to work
practically under the old task system,
whereas the contractors give a certain whereby the contractors give a certain number of coats to a tailor to make and offer him a lump sum for the work. The brotherhood of tailors propose to restore its former scale of weekly wages, which range from 10 to 11s for fifty-nine hours work to believe figure being paid to

operators. New York, March H .- Dr. Chauncey De. pew will be able to leave his house on Mon-day, after a confinement of ten days. He was attained by inits that threaten a to destroy his right.

the higher figure being paid to
